Re: Enterprise Renfrew County of Renfrew

To Whom It May Concern:

I am writing this letter in support of Enterprise Renfrew County. As a successful businesswoman and former Summer Company participant, I see the value in the programs and services that Enterprise Renfrew County delivers on a daily basis. The support that is received and the resources that are available at Enterprise Renfrew County are invaluable to all residents of Renfrew County. The fact that their services are free is another benefit that is extremely hard to find when you consider all of the business help that is available but only with a price tag attached.

Sincerely,

Kylah Dobson
